Subject: Formal Complaint Against AK Supported Housing for Negligence, Abuse, and Misconduct

Dear CQC Complaints Team,

I am writing to formally report AK Supported Housing (located at [5 Falcon Ave, Grays RM17 6SB](#), Phone: 01375 461991) for severe negligence, abuse, and malpractice that I have endured over the past two years as a resident. I have autism, ADHD, Asperger's, and a mild learning disability, and I believe my care has been mishandled in violation of the **Health and Social Care Act 2008** and the **Equality Act 2010**.

Allegations Against AK Supported Housing:

1. Failure to Provide Adequate Care

- Staff failed to deliver consistent **one-to-one support** as required.
- Negligence in ensuring my **basic safety and well-being**.

2. Physical & Emotional Abuse

- **Mary (Staff)** hit me on the back of my neck.
- **Kate (Staff)** inappropriately smacked my body despite knowing this was not acceptable.
- Staff **covered up incidents of physical violence and abuse**.

3. Sexual Harassment & Misconduct

- Staff made inappropriate comments, including saying I "had breasts like a woman."
- A staff member molested me, and this was covered up instead of reported.

4. Threats & Coercion

- **Ade (Management) and their boss** threatened that if I did not take my medication, I would be sent back to a **mental institution** against my will.
- **Grays Hall Akem** falsely claimed I would "relapse" if I did not take the medication.
- I was **coerced into signing a contract** that I had agreed to for two years, but it was changed to **three years without my consent**.

5. Discriminatory Practices & Negligence in Mental Health Care

- Staff **mocked my condition and laughed at me**.
- I was denied necessary support services.

- My mental health deteriorated due to **neglect, threats, and lack of proper care**.

6. Interference with Personal Freedom

- I was falsely reported as **non-compliant with medication** to justify re-admission into a mental health institution.
- Staff attempted to **force treatment on me against my wishes**.

Requested Actions:

Given the severity of these allegations, I request the following immediate actions from the CQC:

1. **Conduct an urgent investigation** into AK Supported Housing.
2. **Take disciplinary action** against responsible staff members.
3. **Ensure compliance** with care regulations and disability rights.
4. **Close AK Supported Housing** if severe malpractice is confirmed.

I have attached any relevant evidence, including documentation and witness statements. I'm expecting a formal response within 14 days, explaining the actions you will take.

If no action is taken, I will pursue legal action for **negligence, abuse, and discrimination**, seeking damages of £1 million.

Sincerely,

Nnamdi Michael Okpala
